10. Ambient Loop 10 64BPM – 01:00

This pack contains high-quality Sci-Fi ambient loops designed for video games, cinematic environments, and interactive media. The sounds are optimized for seamless looping and are suitable for space stations, futuristic cities, and exploration environments.

Looping Information:

- *All tracks are designed for seamless looping. For best results, ensure the audio engine uses loop playback and apply small fade-ins if needed depending on the engine implementation.*

Designed for:

- **Unreal Engine 5.3 or Above**
- **Unity Game Engine**

EFM Ambient Loop Pack - Guide

For Unreal Engine

- Import WAV files into the Content Browser
- Enable Looping in the Sound Wave settings
- Use them in Ambient Sound Actors
